YOUR PROGRAM

Day 1 - Arriving in Zvecaj

Zvecaj is a small village by the Mreznica River, not far from the highway which connects the Croatian capital city of Zagreb to the harbour of Rijeka. A member of our team will meet you either at the airport, railway station or at the port.

Zeleni kut ("The Green Corner") is a well-known restaurant and a small family-owned hotel, overlooking the green Mreznica River and its waterfall. It was built above an old mill which now supplies electricity. The hotel serves traditional Croatian specialties, using fresh-water fish from its own fishing ponds, home-made cheese, ham and sausages as well as fresh vegetables and fruit from local farms. In the evening, a member of our team will meet you on the restaurant's terrace which overlooks the river. You will be served a welcome drink, dinner and will be given a brief introduction to your trip, during which you will have the chance to discuss the upcoming holiday and to get to know your guide and fellow travellers.

Dinner and night in a hotel in the Mreznica River area.

Transfer: 1h from Zagreb airport, 1h30 from Rijeka airport.

Day 2 - Walking in Risnjak National Park

The Risnjak mountain range is named after a rare animal that inhabits its woods – the lynx. It is located in Gorski Kotar, the most mountainous and heavily forested region of the country, about 15km inland from the Adriatic Sea. The pristine park covers an area of 63,5km². It includes both the Risnjak and Snježnik ranges and the spring of the Kupa River. You will start your hike from Crni lug. The Leska trail will lead you towards your destination point – Big Risnjak, the highest peak of this particular mountain range. Schlosser's mountain hut, situated 100m below the peak, is probably one of the most beautiful mountain huts in Croatia. After resting and enjoying the amazing view over the sea, Gorski Kotar and even the Alps, you will descend slowly back to Crni Lug and complete the trail.

Another easier hiking option is in the Kupa River Valley, which is beyond doubt one of the most beautiful places in Gorski Kotar. The Kupa River forms a natural border between Croatia and Slovenia. It springs from a karstic well at the Park's lowest point, forming a turquoise pond some 200m long and 30m wide. This natural phenomenon is one of the deepest and strongest sources in Croatia, which remains a mystery for scientists. The Kupa flows through a picturesque valley, also known as the mysterious valley of butterflies - more than 500 species of butterflies inhabit the area! After finishing your hike, you will return back to your hotel for dinner.

Dinner and night in a hotel in the Mreznica River area.

Transfer: 1-1h30 each way.

Walking:3-5h.

Its exquisite series of 16 emerald green and opal blue travertine lakes, more than 90 waterfalls and numerous caves make it a UNESCO

World Heritage Site. The lakes are surrounded by beech and pine tree forests and are home to extensive wildlife. You'll enjoy a picnic lunch in a pristine natural setting. Panoramic boat and train rides will take you back to the starting point of the walk. Later in the afternoon, you will return to your accommodation in the village just in time to enjoy a quick swim before dinner.

Day 6 - Paklenica National Park

After saying goodbye to our village hosts, you will continue walking south to Paklenica National Park, which is part of a UNESCO World Biosphere Reserve and a favourite hiking and climbing destination. Time permitting, you will stop by the narrow Wild West-like canyons of the Zrmanja and Krupa Rivers and visit the medieval Krupa Monastery, which is the oldest orthodox monastery in Croatia. Paklenica National Park covers the area of the torrent flows of Velika Paklenica and Mala Paklenica, their distinctive canyons being carved vertically into the southern slopes of Mount Velebit and the broader surrounding area. This relatively small area offers exceptional diversity of geomorphologic forms and phenomena, diverse flora and fauna, attractive landscapes and intact nature. Having adapted to the geographic and climatic environment, the locals mostly engage in nomadic stock herding, which can be seen by their mountain shepherd residences. Hiking is the only way to

really get to know Paklenica National Park. There are several wonderful hikes through beech and black pine tree forests to choose from. The most popular is the trail leading to Borisov Dom, a mountain hut popular among mountaineers. After descending all the way to the sea, you will drive to Skradin for the evening.

The last day of the journey will take you to the Krka River National Park with its waterfalls and fantastic karst formations. You will explore the park's extensive waterways and complex history dating back to the late 10th century and to the first Croatian kings. One of the options is a visit to Skradinski Buk waterfall, the place where the second hydro-plant in the world was built, just a few years after the one on Niagara Falls. A boat will take you to Visovac island and its Franciscan monastery. After today's walk, you will return to the hotel and enjoy the rest of the afternoon in the old part of town before your last dinner and the celebration of this amazing adventure.
